# GasSLX<sup>®</sup>

**SEVERE SERVICE**  
ADJUSTABLE GAS CELL SHOCKS

## THE **PROBLEM SOLVER** FOR YOUR **SEVERE DUTY** APPLICATIONS

### Exceptional Performance

**GAS CELL DESIGN = UNMATCHED PERFORMANCE** giving you the best in vehicle control, safety & savings compared to competitor's gas-charged shocks

### 2 Year / 200,000 Mile Warranty

### Fully Adjustable

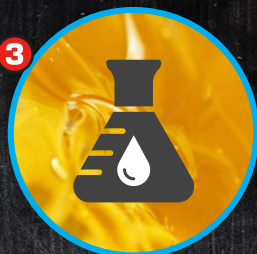

**ULTIMATE** comfort & control with three easily adjustable settings:

**REGULAR:** for standard performance

**FIRM:** for an optimum OE ride

**EXTRA FIRM:** for increased handling & control

### High Temperature Shock Fluid

**REDUCES** friction & wear, even in extreme operating conditions

### Self-Compensating Piston Seal

**IMPROVES** shock performance by delivering consistent damping ability

# Gabriel HD

THE ORIGINAL

## GasSLX® & FLEETLINE®

In addition to the *AMAZING* features on the reverse side, GasSLX® also shares the following features with Gabriel's FleetLine® Heavy Duty Commercial Vehicle Shocks:

### Prevents Catastrophic Damage to Shocks & Air Springs

by using a **BEST-IN-CLASS HYDRAULIC STOP** that improves energy absorption at full extension to limit over-extension of the suspension & prevents damage

### Saves You 2 1/2 Hours of Downtime

with **ANTI-CORROSIVE END MOUNTS** that inhibit rust & corrosion to prevent bolt seizure and eliminates torching to remove a shock

#### Solid Steel Eye-rings

Greater strength reduces end mount failures

#### 360 Degree Reinforced Arc Welded Mounts

Robust structural fatigue and ultimate strength

#### Multi-lip Piston Rod Seal

For superior fluid retention to maximize shock life

#### High performance chromed piston rod

Provides superior corrosion protection to maximize shock life

#### Bulged design

Increased fluid capacity for cooler operation & optimum performance

#### All Coil Spring Valving

For improved ride stability and enhanced durability

#### Large 1 5/8" piston bore

For increased durability & strength
