## The Gabriel® Advantage ✓

	Competitor	HiJackers®	
TUBE SIZE	2.75" Diameter	<b>3" Diameter</b>	- Larger cylinder size for more lifting power
AIR CYLINDER	Exposed	<b>Shielded</b>	- Protects from road debris & allows for higher operating pressures
MAX. PRESSURE	150psi	<b>200psi</b>	- Industry's highest operating pressure provides more lifting power
AIR FITTING	Single O-ring	<b>Double O-ring</b>	- Double O-ring reduces pressure loss over time & allows for higher operating pressures
UPPER END MOUNT	O-ring Seal	<b>O-ring Seal</b>	- An O-ring seal allows the shock to flex which increases durability & allows for more customization

Please note: Gabriel® hijackers® warranty is valid only for Gabriel® hijackers® installed in accordance with the installation instructions packaged with each Gabriel® hijackers® product. Gabriel® hijackers® systems should not be utilized on any vehicle having modifications that would not provide normal operating clearances (including but not limited to clearance between tire and fender or frame) when the Gabriel® hijackers® are completely deflated. Gabriel® is not liable for damage resulting from the use of Gabriel® hijackers® at the fully extended position and is specifically excluded from this warranty. Shocks used with suspension lift kits are also specifically excluded from this warranty. See Gabriel® Warranty for details.
