ReadyMount®

Complete Strut Assemblies

Designed, tested, and proven to deliver unbeatable durability!

Gabriel® knows complete strut assemblies are vital to vehicle safety. That's why we're relentless in our efforts to provide the most durable, premium, pre-assembled strut available...

- ✓ FAST, SAFE & EASY INSTALLATION
- ✓ RIGOROUS TESTING FOR DEPENDABILITY
- ✓ PROVEN ENDURANCE
- ✓ PRECISION ENGINEERED TO O.E. SPECS
- ✓ REAL-WORLD TESTED FOR TOTAL CONFIDENCE

Gabriel®
THE ORIGINAL

We put other complete strut assemblies to the test, and only **Gabriel® ReadyMount®** triumphed!*

For long-lasting performance & durability choose

ReadyMount®

Why don't most competitors test their complete strut assemblies like Gabriel® does? Because they know that they may not like what they see! And you won't either.

Here's what we found:

COIL SPRINGS

Competitor's spring coatings flaked and peeled
Gabriel's ReadyMount® strut spring showed no coating wear

PAINTED SURFACES

Some competitors performed significantly worse than ReadyMount® in a salt spray corrosion test using ASTM-B117 for 240 hours
Gabriel's durable paint finish performed better in the same salt spray test

OTHER COMPONENT SURFACES

Competitor's bearings failed our testing, creating wear at the point of contact
Gabriel's bearing operated smoothly and quietly with no wear at the spring seat

NOISE DURING OPERATION

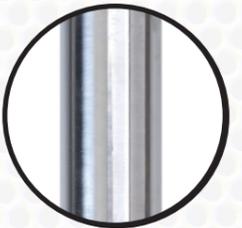

Many of our competitors only test the individual parts, which can lead to premature wear at any contact point in the strut assembly
Gabriel® tests the complete unit, ensuring the assembly is durable and free of noise issues or any misaligned connections

ReadyMount®
complete strut assemblies

Chromed Piston Rod
inhibits rust for superior corrosion resistance

1,000,000-cycle Validation
on every new hydraulic strut design for maximum endurance

More than 10 Grueling tests
including 150,000 cycle coil spring durability test to ensure structural integrity & durability

G-Force Technology
provides the ultimate in safety and reliability based on a culmination of over 100 years of Gabriel's testing & product development
