**Gabriel® HD Announces
New Dealer Locator for Commercial Vehicle Products
on Gabriel.com**

July 27, 2020 – Gabriel® (Ride Control, LLC), the inventor and global leader in ride control manufacturing, is pleased to announce the launch of a new Gabriel® Ride Control Dealer Locator on Gabriel.com. This new Dealer Locator is now available to help commercial vehicle customers locate a ride control retail or installation facility in their local area. Customers can find their nearby Gabriel shock absorber dealers in the US and Canada, based on their zip/postal code and mileage radius they select.

Dealers listed in the search results stock Gabriel's premier FleetLine® Heavy-Duty shocks, covering class 3 through 8 trucks, trailers and buses, as well as cab shocks and steering dampers. Select dealers also offer Gabriel's premium GasSLX® adjustable gas-cell shocks for class 7 and 8 vehicles, school buses and transit buses.

Gabriel.com offers an array of information and technical resources to help customers select the best shock absorbers in the industry. Some of these resources include technical bulletins, frequently asked questions, product literature including Gabriel Product Guides and 2020 Catalog, and an instant online catalog search where customers can look up the-parts they need by application, Gabriel part number, or OEM and competitor part numbers. Gabriel.com also offers links to their AnswerGarage® Training, Rewards Program, and multiple training videos for learning everything they need to know about commercial vehicle ride control.

To access this new Gabriel Dealer Locator, visit gabriel.com/dealerlocator and enter your zip/postal code to find your nearest Gabriel retail or installation location today!

###

About Ride Control, LLC

Ride Control, LLC operates in both the aftermarket and original equipment manufacturer (commercial, automotive, industrial and recreational vehicle) segments under the brand names

Gabriel® (U.S. and Canada) and GRC® (Mexico). The company offered the world's first automotive shock absorber, "The Snubber," in 1907, and continues to be a leader in the design, engineering, development and production of ride control technology in North America today.

Ride Control, LLC has approximately 1,500 employees in the U.S., Canada and Mexico. The company maintains engineering, design, manufacturing, warehouse, sales and management offices throughout North America including Farmington Hills, Michigan; Chickasha, Oklahoma; and Queretaro, Mexico, with additional manufacturing joint ventures in China. For additional information, please visit www.gabriel.com.
