

# **DON'T LET WHAT HAPPENED TO YOUR OLD TIRES & AIR SPRINGS HAPPEN AGAIN!**

Worn shocks can cause **expensive** tire damage  
& **catastrophic** air spring damage!

**WORN SHOCKS**

**NEW GABRIEL® SHOCKS**

The Technology & Maintenance Council  
recommended practice 643A states that fleets  
should install new shocks when installing new tires  
to maximize tire life.

Extend your tire &  
air spring life with  
**FleetLine® & GasSLX®**  
heavy duty shock absorbers!

**SCAN TO  
WATCH  
AND FIND  
OUT HOW!**
